Yes there was some talk about a technical FS discussion not related to the tech mtg on June 29th. But it was not set in stone either date or exact topics. Probably could be handles with a conference call. We can wait until Dave returns.

Jack,

The June 7 public meeting has been cancelled.

Regarding your OU1 technical meetings, unfortunately Dave is out of the office on annual leave all this week. However, from my notes I see that you and he had scheduled a late June technical meeting regarding OU1. Unfortunately, I do not know what technical discussions you and he had been planning in conjunction with the June 6 trip. I do recall that he wanted to make a site visit to observe OU4 investigation related work, but that's all I know. Sorry I can't be of further assistance with your question regarding travel and OU1 technical meetings in the June 6 timeframe.

Chris or Jeryl – do you guys know if Dave had been talking about an OU1 technical meeting in conjunction with June 6?

Subject: Yerington public meeting cancelled

Dave,

Can you please confirm that EPA's public meeting scheduled for June 7 has been canceled? I've heard through the grapevine that it has been canceled but haven't heard anything from EPA.

On a related note, I thought we were planning to meet during this timeframe to discuss EPA's comments on ARC's Screening of Remedial Alternatives document. Is this meeting delayed/canceled as well?

Please advise so my team can modify their travel schedules, if needed.

Thanks,

-jack
